Songs of the Lioness series

By Tamora Pierce

Critic: Jenna Taylor (2 thumbs up)

I think that everyone, girl or boy, should read books by Tamora Pierce. Her amazing way to write many series about one place is amazing. Her first books, and her best, are the Songs of the Lioness series. These books take place in a world of magic and sorcery. A young eleven-year-old girl by the name of Alanna wants to become a knight, but girls can't become knights. So she switches places with her twin brother and has to hide her secret from her friend Jonathon, the prince - George, the king of thieves, and the rest of the crew. While riding around in armor she crosses paths with Jon's cousin, who wants the throne. The cousin goes to great extremes to get it but Alanna has to thwart him or watch her friend Jon die. Now I don't want to tell you too much, but read the books. I recommend them to everyone. My brother Jim has read the books and enjoyed them just as much as I did. So read them, and enjoy.

Frog Prince (2 thumbs up)

By E.D. Baker Critic: Aaron Choi

The book is about a young princess who kisses the frog prince and turns herself into a frog. In order to turn the princess and the prince back into humans, the couple visited an evil witch who they believed could help them. As it turns out, she was just a fake, so they searched for someone else who could help them. Read E.D. Baker's modern-day fairy tale to find out how they solved the problem and lived happily ever after.
